STUDENT TRANSPORTATION

Students living more than four miles from their designated school attendance centers shall be entitled to transportation to and from their attendance center at the expense of the school district.

Parents of students who live where transportation by bus is impracticable or unavailable may be required to furnish transportation to and from the designated attendance center at the expense of the school district. Those parents who transport their children at the expense of the school district shall be reimbursed in accordance with state statute.

A student may be required, at the board's discretion, to meet a school vehicle without reimbursement up to three-fourths of a mile. The board may require the parent to transport their children up to two miles to connect with school bus vehicles at the expense of the school district when conditions deem it advisable. It shall be within the discretion of the board to determine such conditions.

BUS SCHEDULING AND ROUTING

School bus stops and routes will be determined by the transportation supervisor and will be based upon efficiency, safety, board policy and applicable state and federal laws and rules.

The superintendent will:

1. Annually review and assess school bus routes, stops and loading zones for safety, changing student population and supervision of students;
2. Advise parents of any changes in transportation policy affecting their students as early as possible and be responsive to parents' calls for assistance in seeking alternatives to busing; and
3. Work with cities, the county and other appropriate governmental agencies on a continuing basis regarding transportation issues.

BUS SAFETY PROGRAM

The superintendent shall direct the preparation of a Safe Pupil Transportation Plan that, at a minimum, shall address weapons, pupil behavior, terroristic threats, severe weather, hazardous materials, medical emergencies, and driver/passenger procedures in the event of mechanical breakdowns of the vehicle.

The superintendent shall plan and implement a safety-training program for pupil transportation vehicle operators and vehicle passengers. The superintendent shall monitor the scheduling of inservice and educational opportunities for transportation personnel to improve their awareness and skills regarding pupil transportation vehicle safety. Pupil transportation vehicle operators shall attend local workshops and all inservice meetings.

Administrative rules and regulations shall be adopted to govern the safe operation of pupil transportation vehicles. Students violating these regulations may have their riding privileges revoked or suspended. Parents will be responsible for damage done to transportation vehicles or equipment by their children.

The school district shall conduct pupil transportation vehicle safe riding practices instruction and emergency safety drills at least twice a year for students who utilize school district transportation. The emergency evacuation drill procedures should be conducted according to guidelines established by the Nebraska Department of Education.

Pupil transportation operator procedures will include a prohibition against use of a handheld wireless communication device to read a written communication, manually type a written communication, or send a written communication while operating a pupil transportation vehicle which is in motion. Handheld wireless communication device means any device that provides for written communication between two or more parties and is capable of receiving, displaying, or transmitting written communication. Written communication includes, but is not limited to, a text message, an instant message, electronic mail, and Internet web sites.

Each pupil transportation vehicle shall have, in addition to the regular emergency safety drill, a plan for helping those students who require special assistance to safety during an emergency. This shall include, but not be limited to, students with disabilities.

Pupil transportation vehicle drivers are required to attend each safety drill.

All transportation vehicles shall be acquired and maintained to meet or exceed NDE Minimum Equipment Standards for pupil transportation vehicles. The superintendent shall develop a systematic preventive maintenance program including daily, weekly,

Safe Pupil Transportation Plan

Scribner-Snyder Community Schools' Safe Pupil Transportation Plan

This Safe Pupil Transportation Plan sets forth the District's plan for providing safe transportation to students being transported in pupil transportation vehicles.

1. **Weapons-** Upon becoming aware of a weapon aboard a pupil transportation vehicle, the driver will make every attempt to:
 - A. Radio transportation dispatch and notify them of the situation *if possible*. If not possible, the driver will make every attempt to telephone dispatch from a cellular telephone or from the nearest safe haven location. Examples of a safe haven include, but are not limited to, any school building site, emergency service station (law enforcement or fire department), community service agency, etc.
 - B. Pull vehicle over to safe and secure area.
 - C. Confiscate weapon (if it doesn't jeopardize student or driver safety).
 - D. Give description of weapon and participating parties to dispatch.
 - E. Dispatch will immediately notify appropriate law enforcement agencies and school administration.

2. **Pupil behavior-** Students are expected to follow student conduct rules while in a pupil transportation vehicle. The pupil transportation driver is responsible for controlling behavior which affects safety and for reporting rule violations to school administration. In the event a student's behavior jeopardizes safety, the driver will make every attempt to:
 - A. Radio transportation dispatch and notify them of situation *if possible*. If not possible, the driver will make every attempt to telephone dispatch from a cellular telephone or from the nearest safe haven location.
 - B. First seek to resolve incident through discussion with the student(s) involved.
 - C. Activate emergency flashers.

- D. Bring vehicle to a safe stop. Seek to resolve the incident, using physical force only as necessary to protect students or yourself.
- E. Report and document discipline problems to the school administrator on a Bus Conduct Report/Incident Form.

3. Terrorist threats- A person commits a terroristic threat if the person threatens to commit a crime of violence with the intent to terrorize another or with the intent of causing evacuation of a building, place of assembly or facility of public transportation or in reckless disregard of the risk of causing such terror or evacuation. Upon becoming aware of a terrorist threat relating to a pupil transportation vehicle, the driver will make every attempt to:

- A. Radio transportation dispatch and notify them of situation *if possible*. If not possible, the driver will make every attempt to telephone dispatch from a cellular telephone or from the nearest safe haven location.
- B. Make every attempt to keep passengers calm (this may mean complying with the terrorist).
- C. Dispatch will immediately notify appropriate law enforcement agencies and school administration.
- D. Driver should wait for instructions from dispatch *if possible*.

4. Severe weather- Upon becoming aware of severe weather while aboard a pupil transportation vehicle, the driver will make every attempt to:

- A. Radio transportation dispatch and notify them of situation *if possible*. If not possible, the driver will make every attempt to telephone dispatch from a cellular telephone or from the nearest safe haven location.
- B. Return to the school if less than five minutes away and follow the directions of the school administrator.
- C. If more than five minutes away from school, go to the nearest school and follow the directions of the school administrator.
- D. If more than five minutes away from the nearest school or there is immediate danger, get to the nearest basement or underground shelter with all students.
- E. If there is no shelter and there is immediate danger the driver and passengers are to follow evacuation procedures and get everyone off the vehicle into the nearest ditch or culvert at least 100 feet away from the vehicle.

5. Hazardous materials- Upon becoming aware of a hazardous material aboard a pupil transportation vehicle, the driver will make every attempt to:

- A. Radio transportation dispatch and notify them of situation *if possible*. If not possible, the driver will make every attempt to telephone dispatch from a cellular telephone or from the nearest safe haven location.
- B. Pull vehicle over to safe and secure area.

- C. Give description of hazardous materials in question to dispatch.
- D. Dispatch will immediately notify appropriate law enforcement and school administration.
- E. Driver should wait for instructions from dispatch *if possible*.

6. Medical emergencies- Upon becoming aware of a medical emergency aboard a pupil transportation vehicle, the driver will make every attempt to:

- A. Radio transportation dispatch and notify them of situation *if possible*. If not possible, the driver will make every attempt to telephone dispatch from a cellular telephone or from the nearest safe haven location.
- B. Dispatch will immediately notify appropriate medical agencies and school administration.
- C. Driver should follow instructions from dispatch, school officials, and parents when such information can be obtained quickly enough. If not available, follow emergency first aid procedures.
- D. *Only if necessary*, the driver should move passengers only enough to get them out of danger of traffic or fire. If moved, the driver and aide are to keep them where placed until a medical agency arrives, unless a parent has taken charge of their child.
- E. Driver should try to keep student passengers as calm as possible.

7. Procedures in the event of mechanical breakdowns of the vehicle- Upon becoming aware of a mechanical breakdown aboard a Pupil transportation vehicle, the driver will make every attempt to:

- A. Pull vehicle over to safe and secure area *if possible*
- B. Radio transportation dispatch and notify them of situation *if possible*. If not possible, the driver will make every attempt to telephone dispatch from a cellular telephone or from the nearest safe haven location.
- C. Activate emergency flashers and place warning flares/reflectors in accordance with safety guidelines, if not in secure area.
- D. Driver should try to keep student passengers as calm as possible.
- E. Dispatch will arrange for assistance and a relief vehicle *if needed*.

8. Documentation under Safe Pupil Transportation Plan. Each pupil transportation driver is required to complete and submit to the school administration a bus conduct report or incident report involving the pupil transportation vehicle operated by the driver or any pupils transported in it. Documentation is to include the occurrence of any of the following events: weapons, student behavior which affects safety, terrorist threats, severe weather, hazardous materials, or medical emergencies. Documentation of such events shall be completed and submitted as soon as practicable after the incident.

9. Transportation of Unsafe Items. Drivers shall not permit pupil transportation vehicles to transport any items, animals, materials, weapons or look-a-like weapons or equipment which in any way would endanger the lives, health or safety of the children or

other passengers and the driver. Look-a-like weapons associated with a school sponsored or approved activity may be transported only with written permission of a school administrator. Any times that would break or could produce injury if tossed about inside the pupil transportation vehicle when involved in an accident or sudden stop shall be secured.

10. Supplemental Information. A copy of this plan shall be placed in each pupil transportation vehicle, kept at each school building, and made available upon request. Supplemental information with respect to operational and procedural guidelines used to administer this plan can be found in the District's safety and security plan adopted pursuant to 92 NAC10 and in the Nebraska Department of Education Pupil Transportation Guide.

11. Unsafe Drop-Off

Procedures in the event the dropoff location is uncertain or appears unsafe to leave students. In the event the drop off location is uncertain or appears unsafe to leave students, the driver will make every attempt to:

- A. Radio transportation or otherwise communicate with dispatch to notify them of the situation if possible.
- B. Release children only if an adult responsible for the children is present. If not, keep children who are to be released in the vehicle, continue with route, and return children who were to be released to the school.
- C. Dispatch will notify appropriate law enforcement agencies and school administration if appropriate given the circumstances.

BUS DRIVER SUPERVISION

School bus drivers must pass physical examinations and meet other criteria as established by state and federal law and by the Nebraska Department of Education. Bus drivers must have a valid pupil transportation vehicle operator's permit and shall have it in their possession when transporting students. This does not apply to the operator of a small vehicle being used only for extracurricular activities.

The school district shall obtain a record of satisfactory driving for each pupil transportation vehicle operator. It is required that a copy of the individual's driving record be on file with the district before employment as a pupil transportation vehicle operator as defined in NDE rules. The school district shall obtain and keep on file a criminal history record of driver applicants who are not certificated Nebraska teachers or administrators through the Nebraska State Patrol and local law enforcement agency before employment as a pupil transportation vehicle operator.

School bus driver selection procedures will be developed by the superintendent to ensure acceptance of drivers whose capabilities are commensurate with job responsibilities, including minimum requirements for a satisfactory driving record.

Substitute pupil transportation vehicle operators shall meet the same driver requirements and qualifications as a regular pupil transportation vehicle operator. A pupil transportation vehicle operator shall not have the authority to assign a substitute without the prior approval of any school administrator or person designated by the governing school board.

All school bus drivers are required to inform the district immediately of any change in their driving or criminal records that could affect their eligibility to maintain the student transportation vehicle operator's permit.

Pupil transportation vehicle operators shall document and report to the transportation supervisor the occurrence of any events covered by the Safe Pupil Transportation Plan that involved the pupil transportation vehicle operated by the driver, or any pupils transported in it. The superintendent shall develop such reporting procedures.

STUDENT TRANSPORTATION FOR EXTRACURRICULAR ACTIVITIES

The board in its discretion may provide school district transportation for extracurricular activities including, but not limited to, transporting student participants and other students to and from extracurricular events.

Students participating in extracurricular events, other than those held at the school district facilities, may be transported to the extracurricular event by school district transportation vehicles or by another means approved by the superintendent. Students attending extracurricular events, other than those held at the school district facilities may be transported to the extracurricular event by school district transportation vehicles.

Students, who are provided transportation in school district transportation vehicles for extracurricular events, shall ride both to and from the event in the school vehicle unless arrangements have been made with the building principal prior to the event. A student's parent may personally appear and request to transport the student home from a school-sponsored event in which the student traveled to the event on a school district transportation vehicle.

It shall be the responsibility of the superintendent to make a recommendation to the board annually as to whether the school district shall provide the transportation authorized in this policy. In making the recommendation to the board, the superintendent shall consider the financial condition of the school district, the number of students who would qualify for such transportation, and other factors the board or superintendent deem relevant.

TRANSPORTATION OF NONSCHOOL GROUPS

School district vehicles may be available to local nonprofit entities which promote cultural, educational, civic, community, or recreational activities for transporting to and from nonschool-sponsored activities within the state as long as the transportation does not interfere with or disrupt the education program of the school district and does not interfere with or delay the transportation of students. The local nonprofit entity must pay the cost of using the school district vehicle as determined by the superintendent. Prior to making the school district transportation vehicle available to the local nonprofit entity, the "school bus" signs shall be covered and the flashing warning lamps and the stop arm made inoperable.

TRANSPORTATION IN INCLEMENT WEATHER

School district buses will not operate when weather conditions due to fog, rain, snow or other natural elements make it unsafe to do so. Because weather conditions may vary around the school district and may change quickly, the best judgment possible will be used with the information available.

The final judgment as to when conditions are unsafe to operate will be made by the superintendent. The superintendent will be assisted by the actual "on location" decisions and reports of the drivers.

When weather conditions deteriorate during the day after school has begun, cancellation notices will be announced by the district's electronic announcement systems. Students will be returned to their regular drop-off sites unless weather conditions prevent it. In that case, students will be kept at or returned to school until they are picked up by the parents.

STUDENT TRANSPORTATION IN PRIVATE VEHICLES

Standing authorization for student transportation in private vehicles shall be granted by the board to school administrators, school nurses and other student services personnel designated by the superintendent.

No employee shall transport students in private vehicles without insurance coverage in compliance with state law.

Special permission for providing student transportation may be granted in exceptional cases by the principal to other professional staff members such as coaches, music teachers and activity sponsors. Exceptional cases shall be determined by review of the number of students traveling, relative costs, safety factors and distance providing as follows:

1. The school administrator has approved the activity;
2. A permission slip signed by the student's parent(s) has been received by the principal or his/her designee, granting permission for the student to participate in the field trip/activity and to ride in a privately-owned vehicle;
3. The employee, parent or other adult driving the vehicle is properly licensed to drive; and
4. The vehicle contains an adequate number of seat restraints and the adult driver requires their use.

The district will develop procedures to implement this policy.

SCHOOL FOOD PROGRAM

The school district will operate a school lunch and breakfast program in each attendance center. The school food program services will include hot lunches through participation in the National School Lunch Program and supplementary foods for students during the school day. Students may bring their lunches from home and purchase milk or juice and other incidental items.

School food service facilities are provided to serve students and employees when school is in session and during school-related activities. They may also be used under the supervision of the director of food services for food service to employee groups, parent-teacher meetings, civic organizations meeting for the purpose of better understanding the schools, and senior citizens in accordance with board policy.

The school food program is operated on a nonprofit basis. The revenues of the school food program will be used only for paying the regular operating costs of the school food program. Supplies of the school food program shall only be used for the school food program.

The board will set, and periodically review, the prices for school lunches, breakfast and special milk programs. It shall be the responsibility of the superintendent to make a recommendation regarding the prices of school lunch, breakfast and milk.

It shall be the responsibility of the director of food services to administer the program and to cooperate with the superintendent and head cook for the proper functioning of the school food program.
