## OBJECTIVES OF BUILDINGS & SITES

This series of the board policy manual sets forth the board objectives and goals for the school district's buildings and sites. It shall be the goal of the board to provide sufficient school district buildings and sites for the education program. The board shall strive to provide an environment which will encourage and support learning.

In providing this environment the school district buildings and sites will accommodate the organizational and instructional patterns that support the education program. The board shall have final authority to determine what is necessary to meet the needs of the education program.

It shall be the responsibility of the superintendent to oversee the day-to-day operations of the school buildings and sites and to notify the board of areas in need of improvement.

## BUILDINGS & SITES LONG RANGE PLANNING

As part of the board's long range plan for the school district's education program, the board shall include the buildings and sites needs for the education program. The long-term needs for building and sites shall be discussed and determined by the board.

It shall be the responsibility of the superintendent to provide information including, but not limited to, enrollment projections and education program requirements to the board.

Approved: May 2012    Reviewed: September 2014    Revised \_\_\_\_\_

## CONSTRUCTION PLANS AND SPECIFICATIONS

The board may engage the services of consultants or other personnel to study the needs of the school district's buildings and sites in providing the education program. The results of these services will be considered in planning the education program and in making decisions about the improvement and acquisition of additional buildings and sites.

In any construction involving architecture or engineering with a cost contemplated to exceed \$100,000, and an amount as periodically adjusted by state statute, the board shall engage an architect, a professional engineer, or a person or persons under the direct supervision of an architect or professional engineer to prepare the plans, specifications and estimates for the construction.

It shall be the responsibility of the superintendent to make a recommendation to the board regarding the need for such services and who should perform such services for the board.

Buildings considered for purchase or construction by the board or currently owned by the school district and used for the education program must meet, or upon improvement be able to meet, the specifications set by the board. The board shall make this determination.

Prior to construction or renovation of buildings and sites the board shall make a determination of the method by which it will obtain construction services. If the board elects by a seventy-five percent affirmative vote to use the Construction Management at Risk or Design-Build methods rather than the traditional Design-Bid-Build method, policies for that respective method must be established prior to selecting the construction services provider.

Prior to remodeling or other construction of buildings and sites, the board may appoint a committee of consultants, employees, citizens, or others to assist the board in developing the specifications for the new or improved buildings and sites. These specifications shall be consistent with the education program, and they shall provide the architect with the information necessary to determine what is expected from the facility. It shall be within the discretion of the board to determine whether a committee shall be appointed.

It shall be the responsibility of the superintendent to make a recommendation to the board regarding the specifications of buildings and sites.

## SITE ACQUISITION

Sites acquired by the board shall meet or, upon improvement, be able to meet the specifications set out by the board prior to using the site for the education program. The board may meet in closed session to discuss potential purchases of sites.

It shall be the responsibility of the superintendent to assist the board and to make recommendations concerning the acquisition of sites.

Approved: May 2012    Reviewed: September 2014    Revised \_\_\_\_\_

BIDS AND AWARDS FOR CONSTRUCTION CONTRACTS

Public, competitive sealed bids are required for construction projects, including renovation and repair, with a cost exceeding \$100,000 and an amount as periodically adjusted by state statute. This does not apply to the acquisition of existing buildings, purchase of new sites or site expansions by the district. The sealed bids shall be opened in public on the date and hour as advertised.

The award of construction contracts will, generally, be made to the lowest responsible bidder. The board, in its discretion, after considering factors relating to the construction, including, but not limited to, the cost of the construction, availability of service and/or repair, completion date, and any other factors deemed relevant by the board, may choose a bid other than the lowest bid. Resident bidders of the state of Nebraska may be given preference over nonresident bidders in some instances according to state statutes. The board shall have the right to reject any or all bids, or any part of the bids, to waive informalities, and to enter into the contract or contracts deemed to be in the best interests of the school district.

It shall be the responsibility of the superintendent to make a recommendation accompanied by supportive reasoning to the board for construction contract bids.

The district will require the successful bidder to submit a performance labor and material payment bond for an amount not less than the contract price on any project with a total cost of more than ten thousand dollars.

## SECURITY

The Board encourages cooperation with local law enforcement and fire authorities and insurance company personnel in planning and carrying out proper security measures to preserve and protect the district's investment in its physical plant.

Buildings constitute one of the greatest capital investments of the district and should be protected. Security includes minimizing fire or other safety hazards, reducing the probability of faulty equipment, and keeping records and funds in a safe place. Security also includes having available floor plans of buildings and site plans showing campus boundaries and access points.

A key control system shall be established and maintained limiting building access to district personnel thus safeguarding against potential entry by unauthorized persons.

Protective devices designed as safeguards against illegal entry and vandalism shall be installed where appropriate.

The superintendent is directed to establish regulations as may be needed to provide for security of buildings and grounds.

Incidents of illegal entry, theft of school property, vandalism or damage to school property from any cause shall be reported by phone to the office of the superintendent and to the appropriate law enforcement agency as soon as discovered. A written report of the incident shall be made within one working day of discovery and forwarded to the superintendent's office.

Approved: May 2012 Reviewed: September 2014 Revised \_\_\_\_\_

## MAINTENANCE SCHEDULE

The school district buildings and sites, including the grounds, buildings and equipment, will be kept clean and in good repair. Employees should notify the building principal when facilities are in need of repair or the removal of litter or graffiti.

It shall be the responsibility of the superintendent to maintain the school district buildings and sites. As part of this responsibility, a maintenance schedule shall be created and adhered to in compliance with this policy.

                          504.09 Student Lockers

Approved: May 2012   Reviewed: September 2014   Revised \_\_\_\_\_

## FACILITIES INSPECTIONS

A program for annual inspection, in addition to those conducted by authorized agencies, of the equipment, facilities, and grounds shall be conducted as part of the maintenance schedule for school district buildings and sites. The results of this inspection shall be reported to the board annually. Further, the board may conduct its own inspection of the school district buildings and sites annually.

## ANNUAL EMERGENCY SAFETY PLAN

All employees have the responsibility for maintaining safe, healthful and sanitary conditions within the buildings and on the grounds of the school district. The Superintendent shall designate staff and develop procedures to insure that all facilities meet fire, safety and health codes.

The Superintendent shall appoint a school safety and security committee represented by faculty, parents and community members that will prepare and review the school's safety plan. This plan will be updated annually by the committee and approved by the School Board. The plan will address safety procedures and security plans for students, staff and visitors, including during emergency events.

Typical elements of this plan will include:

- The assignment of specific employees to safety tasks and responsibilities.
- Instructions relating to the use of alarm systems and signals.
- Information concerning methods of fire containment and equipment use.
- Systems for notification of appropriate authorities.
- Specification of evacuation routes and procedures.
- Posting of plans and procedures at suitable locations.
- Procedures and frequency of emergency evacuation drills.
- An evaluation of each evacuation drill.

The plan shall be reviewed annually by one or more persons not on the committee and not an employee of the school district. This review includes a visit to each school building to analyze plans, policies, procedures and practices. Recommendations shall be made to the Superintendent and the committee for use in revising the plan.

### Business Operations

Scribner-Snyder Community Schools is committed to providing and maintaining a safe and healthy work environment. The administration is to make the safety of employees an integral part of the management function. Each employee is to make safety an integral part of their duties by following established safety regulations and procedures, assisting in accident prevention activities by reporting any job-related injury to the administration immediately, reporting unsafe conditions immediately, and providing suggestions to eliminate accidents and injuries. Failure to follow safety rules may lead to disciplinary action up to and including termination.

Safety and health management is the ultimate responsibility of the Board. Functional authority for continued development and implementation of health and safety is hereby delegated to the Superintendent or the Superintendent's designee.

The Superintendent is designated as and shall serve as the primary liaison between emergency personnel and the District in the event of an incident. The Superintendent shall designate individuals within each building to serve as a liaison between emergency personnel and the District in the event of an incident. The Superintendent shall inform emergency personnel of the persons designated as liaisons.

The Superintendent shall ensure that emergency drills are conducted at least as often as required by law, including fire drills conducted at least once a month with one additional drill being conducted during the first 30 days of school, tornado drills conducted at least once during the first two weeks of school and at least once during the month of March, and bus evacuation drills conducted at least two times during the school year involving all students and appropriate staff.

The Superintendent shall ensure that, in the event of an emergency, the District has methods of communication to reach all internal and external stakeholders and that the District has a plan for public communication to gather, verify, coordinate, and disseminate information during an incident.

The Superintendent shall ensure that multi-hazard training is provided for specified employees in required areas to comply with local, state, and federal regulations, as well as non-required areas to improve safety within the District.

### Safety Committee

A Safety Committee is hereby created. The Superintendent shall coordinate and maintain the Safety Committee. The Safety Committee will be made up of community stakeholders willing to serve on the Committee. The Board hopes that the following members of the community are willing to serve on the Safety Committee: parents, law enforcement and local first responder professionals, teachers, administrators, mental health professionals, custodians, school nurses, local emergency managers, IT managers, and school transportation personnel.

The Safety Committee shall meet at least annually to review safety standards and protocols. The Safety Committee may designate subcommittees to report to the Safety Committee.

The Safety Committee shall:

- Prepare and communicate with local authorities (e.g., fire, police, rescue, emergency management personnel) at least annually. Such communications shall include collaborations with local authorities to identify and address safety and security issues.
- Consider, develop and implement guidelines for event and incident management. Such guidelines shall be reviewed and practiced by all employees, students and relevant stakeholders at least annually.
- Consider, develop and implement standard response and practice procedures for emergency situations, such as lock downs, lock outs, evacuations and shelter. Such procedures shall be reviewed and practiced by all employees, students and relevant stakeholders at least annually. Such procedures shall include a plan to identify and document crisis communication procedures with the following stakeholder groups: emergency responders, employees, students, parents/guardians, media, and others as needed. Such procedures shall also provide information to staff to empower staff to initiate protection actions, when appropriate.
- Take any reasonably necessary steps to ensure that the District is in compliance with all applicable fire and life safety codes.
- Take any reasonably necessary steps to ensure that the District has standardized and visible interior and exterior signage for emergency responders.
- Consider, develop and implement strategies and processes to assess observable, positive relationships between students and employees and students and other students.
- Consider, develop and implement strategies and processes to create a respectful, positive, and safe environment conducive to learning.
- Consider, develop and implement procedures to monitor school safety and security protocols for off-campus school sponsored events.
- Consider, develop and implement a student assistance process where problem solving can occur and intervention strategies are recommended and implemented.
- Consider, develop and implement a plan for behavioral threat assessments and conducting threat assessment protocols using trained staff.
- Consider, develop and implement safety and security procedures to monitor before and after-school activities, including other facility users.
- Identify mental health resources and use such resources when appropriate.
- Ensure that procedures are in place that require all District employees to participate annually in at least one hour of suicide prevention training.
- Ensure that all school buildings have designated multiple evacuation assembly locations for each building, and that staff and students within each building are aware of said locations.
- Review the District's bullying policy and student dating violence policy at least annually and recommend to the Board any proposed changes to the District's bullying policy and/or student dating violence policy.

- Consider, develop and implement a protocol for an annual inventory of all chemicals (e.g., classrooms, custodial, buildings, grounds), proper storage, and disposal of unused or outdated chemicals.
- Ensure that the District maintains immunization records for all students and uses the data for health and safety of students, when appropriate.
- Conduct a District-wide safety and security self-assessment for each building.
- Conduct a safety audit on an annual basis.
- Review at least annually the District's policies and protocols on active supervision throughout school buildings and campus, and recommend any changes in policies or protocols to the Board.
- Review at least annually the District's policies and protocols on security and visitors (including visitors in specialized areas, such as prekindergarten areas, playgrounds, science labs, and so forth) in school buildings, and compare the District's policies and protocols with guidance issued by the Readiness and Emergency Management for Schools Technical Assistance Center (REMS-TA), and recommend any changes in policies or protocols to the Board.
- Conduct a performance review of emergency drills and suggest any changes, when appropriate.
- For any safety and security procedures or protocols, review said procedures and protocols to ensure that such procedures and protocols accommodate individuals with special needs.
- Consider, develop and implement procedures supporting academic, physical, operational and psychological/emotional aspects of an incident, after an incident occurs. Such procedures shall ensure that students and employees are supported and given an opportunity to address psychological and emotional health needs after an incident. Such procedures shall also ensure that resource requests and management of the incident be conducted in a way that supports the psychological and emotional needs of students and staff after an incident. The Committee shall explore mutual aid agreements to address the academic, physical, operational, psychological, and emotional recovery areas, and make any recommendations to the Board.
- Adopt and maintain an effective written Injury Prevention Program for the District.

The Safety Committee shall maintain documentation of its compliance with this policy.

Rev. Stat. §§ 48-443 to 48-445

Cross-Referenced: Policy 6115 (Fire Drills)

Approved: April 2017 Reviewed: \_\_\_\_\_ Revised \_\_\_\_\_

## ACCIDENT REPORTS

Accidents will be reported immediately to a supervisor.

Written reports will be submitted within one business day to the building principal on all accidents occurring on district premises, in district vehicles, at a district-sponsored activity or involving staff members who may be elsewhere on district business. Reports will cover property damage as well as personal injury.

All accidents/incidents will be promptly investigated. As a result of the investigation any corrective measures needed will be acted upon.

Monthly records will be maintained.

Approved: May 2012   Reviewed: September 2014   Revised \_\_\_\_\_

## SAFETY DRILLS

All schools are required to instruct and drill students on emergency procedures so that students may respond to an emergency without confusion and panic. Each building administrator will conduct emergency drills in accordance with state statute and the district's Emergency Safety Plan.

Drills and instruction on fire emergencies shall include routes and methods of exiting the school building. The district will conduct fire drills as required by state regulations.

Instruction on tornado dangers and natural disasters shall be conducted annually.

Legal Reference:                   79-705 and 706

Approved: May 2012   Reviewed: September 2014   Revised \_\_\_\_\_

## SCHOOL CLOSINGS AND CANCELLATIONS

In case of hazardous or emergency conditions, the superintendent may alter district and transportation schedules as are appropriate to the particular condition. Such alterations include closure of all schools, closure of selected schools or grade levels, delayed openings of schools and early dismissal of students.

The superintendent will develop and maintain such plans and procedures as are necessary to carry out alternate school and bus schedules.

At the beginning of each school year students, parents and staff will be informed of the procedures used to notify them in case of an emergency closure.

## EYE PROTECTIVE DEVICES

The district shall supply eye protective devices for teachers, students and visitors to all shops and laboratories meeting the standard of the American National Standard Practice for Occupational and Educational Eye and Face Protection as approved by the American National Standards Institute (ANSI).

Every teacher and student shall be required to wear eye protective devices at all times while participating in or observing the following courses of instruction:

1. Vocational, technical, industrial arts, chemical, or chemical-physical, involving exposure to:
  - A. Hot molten metals or other molten materials;
  - B. Milling, sawing, turning, shaping, cutting, grinding, or stamping of any solid materials;
  - C. Heat treatment, tempering, or kiln firing of any metal or other materials;
  - D. Gas or electric arc welding or other forms of welding processes;
  - E. Repair or servicing of any vehicle; or
  - F. Caustic or explosive materials; and
2. Chemical, physical, or combined chemical-physical laboratories involving caustic or explosive materials, hot liquids or solids, injurious radiations, or other hazards not enumerated.
